

TRANSPORTATION SERVICES

Sea-Air Transportation Solutions

Red Sea Disruption - we have the solution:

Sea-Air Solutions

QUICK FACTS

- Sea-Air is an ideal way to combine the benefit of a quick time-to-market (50% faster), with reduced costs (30%). We seamlessly sync two transport modes together to ensure your deadlines are met.
- Receive sea freight connection priority, immediate discharge, top stowage and other exclusive advantages backed by leading port group PSA International.
- Dedicated Air uplifts capabilities with guaranteed capacity. Our hub is also strategically located between neighboring countries for easy trade corridor access via road or barge network.
- Support environmental and sustainability business goals by actively reducing carbon emissions.
- Flexibility to make use of Port+ Solutions in Singapore.

Red Sea Disruption - we have the solution:

Sea-Air Multimodal Transshipment out of Singapore

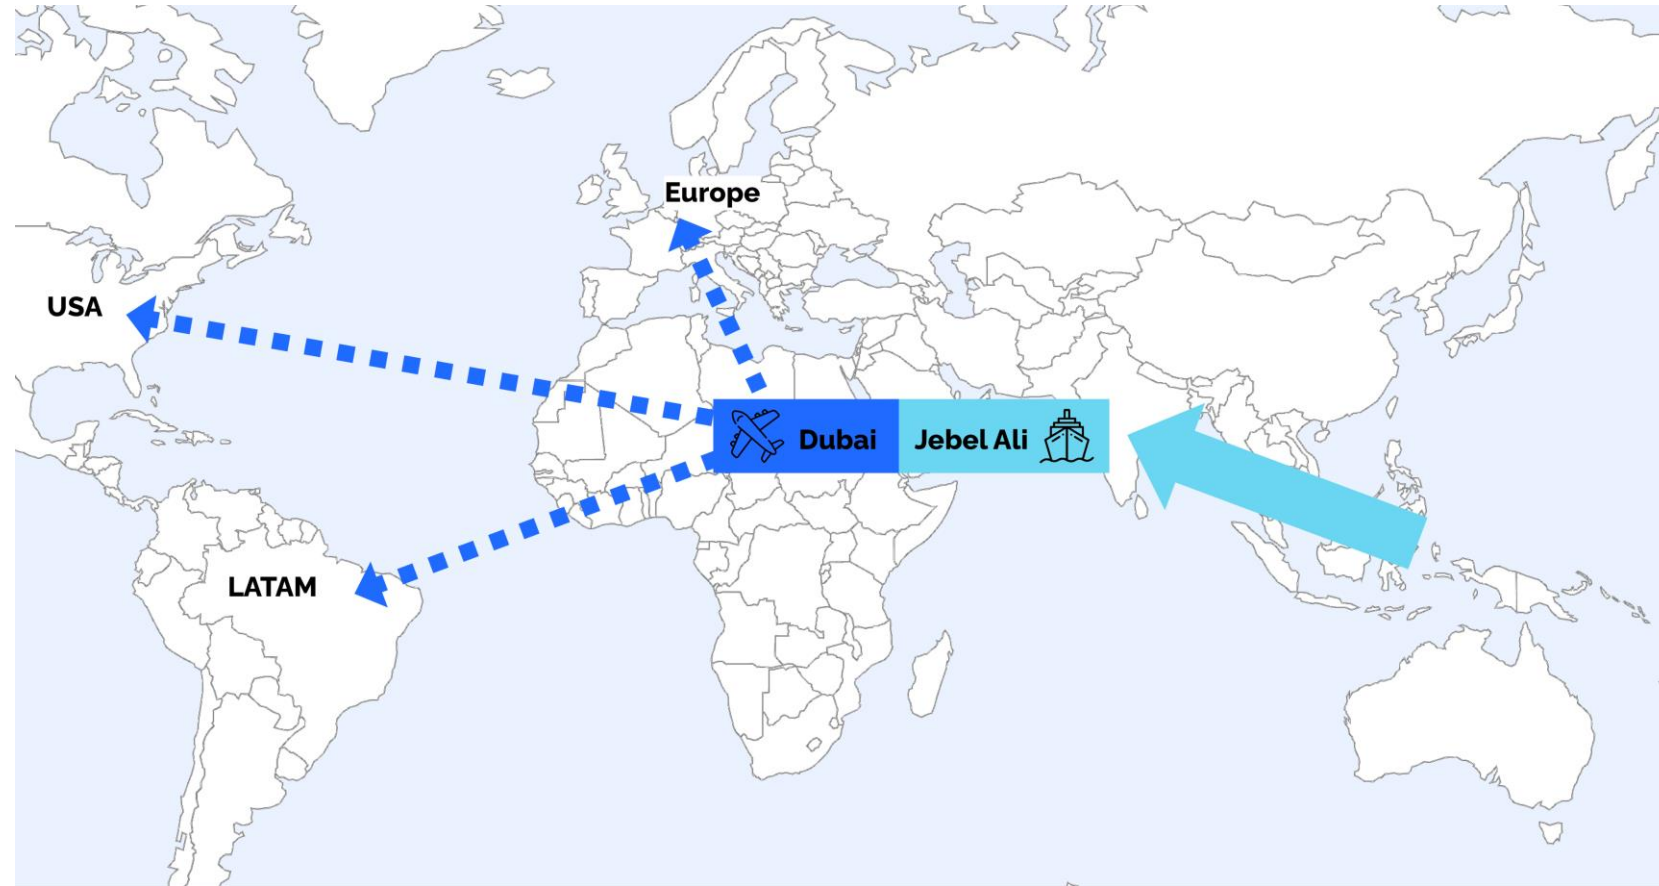

- PSA BDP will ship your cargo by Ocean to our Singapore hub and ship it by Air to other major destinations in Middle East, Europe and Americas.
- With frequent flight departures, it takes less than 2 weeks to send your cargo to the other side of the world by saving up to 60% in transit time versus pure sea freight from Far East to the West.

Red Sea Disruption - we have the solution:

Sea-Air Multimodal Transshipment out of Asia via Dubai

- Our Sea-Air services are highly flexible, allowing reliable solutions during supply chain disruptions
- Priority ocean freight bookings and guaranteed air freight space
- Reduce costs, save time and lower environmental impact
- Door-to-Door service
- All-in-one price per Kilo
